

Connecting to Zoom on school Chromebooks

Connecting to a Zoom meeting using school Chromebooks can be tricky— there are a couple of steps you need to do to access the secure Department access.

Go to the Zoom website and add the code you have been given to join the meeting.

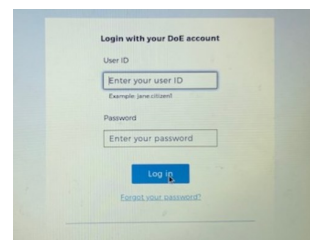

This will redirect you to this screen where you need to click on join from browser.

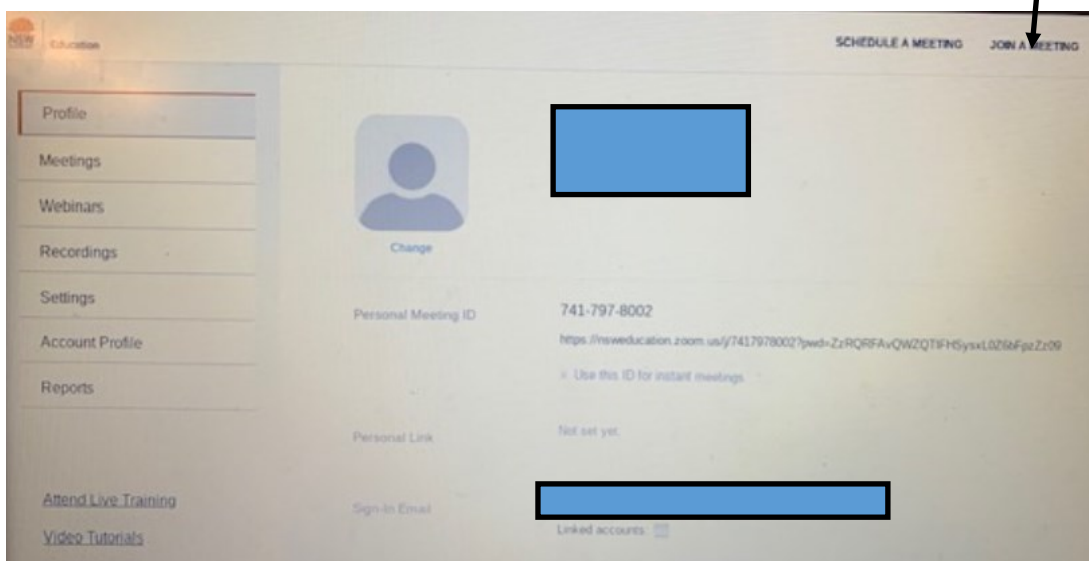

You will then be redirected back to the sign in page. You need to use your school email address and the password you use to get into the school portal.

This will take you to the Department's log in page, where you log in like you do at school.

You will find yourself on this screen. Click on the join meeting tab and add the codes when prompted.

Follow the prompts to be part of the meeting.
