

# Phonics Support Pack Instructions

Welcome to your phonics support pack. Phonics is a foundational skill that supports the development of reading. It is the understanding of the relationship between phonemes (sounds) and graphemes (letters). This pack has been designed using research to support your child's learning of sounds and letters to blend to read words and segment to spell words.

In this pack you will find:

- Sound flash cards
- CVC (constant-vowel-constant) words
- A range of games with instructions.

This pack focuses on the sounds CK E U R. This pack should be used in conjunction with previous packs. It is important to know how to pronounce our sounds correctly. Please refer to the sound pronunciation videos on the [www.librarywps.com/phonics](http://www.librarywps.com/phonics) website for instructions on how to pronounce sounds.

## *Sound Flash Cards:*

Letters and their sounds should be introduced one at a time. When students become confident in matching the sound to the letter, they can begin blending sounds together to make words. For example blending s-a-t to make the word sat. They will also begin to segment, for example, asking students to find the letter sounds that make the word tap from a small selection of letters.

## *CVC Words:*

Words should be introduced once students have become confident in matching the letter to the sound. For blending, have students say each sound and then blend together to say a word. For segmenting, say a word and have students stretch it out and write each sound.

Please enjoy using this pack to support your child's learning,

Kind Regards,

Kindergarten Team
